**Introduction**

In the XIV chapter of our dictionary, a separate chapter is devoted to the family. In the newly revised Constitution of the Republic of Uzbekistan, "The family is the main link of society and it is under the protection of society and the state. Marriage is based on the traditional family values of the people of Uzbekistan, voluntary consent and equal rights of the parties. The state creates social, economic, legal and other conditions for the full development of the family. This shows that serious attention is paid to the family in our country, that the family is the main link of the society and has the right to be under the protection of the society and the state. Family is the sacred place that preserves the continuity of any people, nation, ensures the development of national values, brings a new generation into the world, educates them spiritually and physically, and the main foundation of society. For this reason, the role of the family in the formation and promotion of the unique spirituality of a particular nation is very large. After all, a person as a person is formed in the bosom of the family, where the purest and purest feelings, emotional concepts and imaginations appear. If the family is an important link of the society, strong and morally whole, the children brought up in it will grow up to be useful people for the country. As it is not without reason, the breakdown of marriages in some families and the conflicts related to it, the divorces that occur as a result of the turbulent spiritual and spiritual environment in some households are situations that require special attention today. Unfortunately, there are those among us who do not take the family seriously, consider marriage as a game, and leave their children without a father. In the courts, many cases of such "parents who are devoted to their families" are considered.

As an example, the plaintiff U.X. respondent D.O. applied to the Samarkand city court in civil cases with a claim to challenge paternity, and in his claim, U.Kh. After getting legally married on March 31, 2007, D.O. stated that he is married to, that he has two children from their marriage, that his first child looks like him, but Umidjon, who was born on December 20, 2020, does not look like him, that is why he doubts that he is his child.

A human DNA forensic biological examination was appointed by the city court, and according to the experts' conclusion, it was noted that the biological paternity of U.K. with regard to Umidjon, born on December 20, 2020, was not confirmed. Based on this, the court satisfied the claim of the plaintiff U.Kh., and U.Kh. Umidjon, who was born on December 20, 2020, was found not to be his biological father.

Loyalty always requires prudence, and prudence always requires patience. Loyalty cannot be bought. Devotion rests on hearts on which the eyes of God fall. After all, the heart of a person without loyalty is worthless. The main thing that is required to be happy in a family is mutual trust and loyalty. There are parents among us who don't know the merits and don't want their children to become orphans. Their lack of spirituality and insufficient moral education causes such unpleasant situations to arise. That's why they don't think about the end of what they are doing, they don't understand the consequences of divorce. And when the day comes when the jar breaks... the last regrets and apologies are of no use. Eventually, due to divorce, the number of dysfunctional families in society increases by one more.

In conclusion, it should be noted that although D.O. If he does not know the sanctity of the family, that marriage in society is a free union and contract between a man and a woman based on equality and mutual desire, and the purpose of which is to build a family and raise children to be worthy members of society!?! D.O.'s betrayal of his family affected not only his future, but also that of Umidjon, who has just turned one year old.

Preparing young people for family life is important in preventing the divisions occurring in society. It should be instilled in the mind of every person that the place of the family cannot be replaced by any blessing. Because a person's task is to build a happy and strong family. When young people step on the threshold of the holy place called family, if they take their independent life seriously and don't end up in their whims and fancies, some unpleasant situations like the above that appear in the family would be avoided. It is necessary for our young people to feel from their hearts that the foundation of happiness and family strength is based on loyalty.

In order not to repeat such cases of "betrayal of the family" between divorces, not only the neighborhood or women's committee, but all of us should work together to explain the sanctity of the family to the citizens.
